## Installed Car Kits

### Parrot CK3000 EVOLUTION™

- Convenient browser button
- Voice recognition dialing
- Vocal caller I.D.
- Noise reduction, echo cancellation
- Automatic car stereo muting
- 450-name phonebook
- Pairs up to 3 phones/devices

#### Easy to use car kit with dashboard positioned control.

Provides drivers with a full range of features for maximum cell phone convenience and connectivity. Noise reduction and echo cancellation technology provide crystal clear conversation.

### Parrot CK3100 LCD™

- LCD screen displays caller I.D.
- Convenient browser button
- Easy automatic phonebook sync
- Voice recognition dialing
- Noise reduction, echo cancellation
- Automatic car stereo muting
- 5,000-name phonebook
- Pairs up to 5 phones/devices

#### Advanced hands-free kit has dash-mounted LCD screen.

Drivers will enjoy convenience, connectivity and more confident driving with a dashboard display of cell phone functions and clear reproduction of the caller's voice through the car stereo speakers.

### Parrot 3200 LS-COLOR™

- TFT color screen displays photo caller I.D.
- Easy-to-use browser button
- Automatic phonebook sync
- Voice recognition dialing
- Noise reduction, echo cancellation
- Automatic car stereo muting
- 5,000-name phonebook
- Pairs up to 5 phones/devices

#### Most popular car kit offers high resolution color LCD screen.

Next generation *Bluetooth* hands-free car kit offers a larger dashboard-positioned color LCD screen, external microphone and under-dash control unit. The 262 x 144 pixel display provides a high resolution color picture like your cell phone.

## Plug & Play and Portable Car Kits

### NEW! MINIKIT™ SLIM

Compact – weighs just 3 ounces  
Flat panel technology for clear sound  
Automatic cell phonebook sync  
Text-to-speech audible phonebook  
Lithium-Ion battery for over 10 hours  
talk time, 20 days on standby  
Compatible with iPhone and most  
cell phones, smartphones and PDAs  
User-independent voice recognition

**Portable speakerphone is 1.14 inches slim.** Its unique flat panel front is engineered to produce clear natural audio, eliminating a conventional speaker inside. Advanced Parrot NR3 noise reduction and AEC-2 echo cancellation add to the clarity.

### Parrot MINIKIT™

Compact, portable, rechargeable  
Voice recognition dialing  
Noise reduction, echo cancellation  
750-name phonebook  
Pairs up to 5 phones/devices  
Car charger recharges in 3 hours  
or less  
Up to 10 hours talk time and 10 days  
standby

**Speakerphone lets you call hands-free everywhere.** Now you can use your cell phone to make hands-free calls in your car, home, office or even the outdoors. The MINIKIT clips to your car visor and fits easily in pocket or purse. Advanced noise reduction and echo cancellation for crystal clear conversations.

### Parrot PMK5800™

LED screen displays radio frequency  
Streams digital music (A2DP)  
Mini-USB input for iPod/MP3 player  
Voice recognition dialing  
Built-in microphone  
Noise reduction, echo cancellation  
Automatic car stereo muting  
450-name phonebook  
Pairs up to 10 phones/devices

**Plug & play kit sends voice and music through car stereo.** It's a hands-free car kit that's designed as a plug & play portable to go where you go. Yet it offers the full range of Parrot hands-free calling features. Your digital music and the caller's voice are transmitted through your FM car radio – clear and free of noise.

## Make and take calls in your car without touching your cell phone

### Comfort

Hands-free – no more awkward holding of the phone between your head and shoulder while driving

Drive, talk and relax – keep your hands on the wheel, eyes on the road and enjoy the conversation

### Convenience

Easy to use – pair it once, then pairing is automatic

Automatic muting of stereo (except Parrot MINIKIT™)

Compatible with most *Bluetooth*®-enabled cell phones

Easy switching to privacy mode (from speakers to cell phone for private calls)

### Control

Make and take calls in your car without touching your phone

No more dialing while driving or looking for a ringing phone

Reduce the number of distractions for safer driving

### Music

On Parrot PMK5800™, MKi9100™ and MKi9200™ kits:

Stream digital music through your car stereo

*Bluetooth* stereo (A2DP) is required on your cell phone for Parrot music kits – or use a *Bluetooth* stereo dongle

### What is *Bluetooth*?

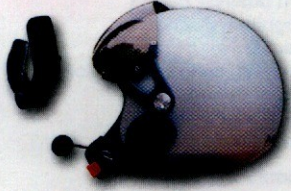

*Bluetooth* is a wireless technology that enables electronic devices to communicate with each other – as if they were connected with an invisible wire.

## NEW! Hands-Free Kit for Motorcycles

### Parrot SK4000™

Unique design to fit all helmets  
Includes handlebar wireless remote  
Streams digital music (A2DP)  
Includes FM radio, input for iPod®  
Easy automatic phonebook sync  
Text-to-Speech audible phonebook  
Voice recognition dialing  
Vocal caller I.D.

**Ride connected.** Now you can make and take calls, listen to FM radio or your favorite digital music – all while riding calm and cool. The SK4000 is a full-featured *Bluetooth*® hands-free kit designed expressly for motorcycles. Completely wireless, it fits on your helmet and automatically links to a *Bluetooth* A2DP-enabled cell phone in your pocket or saddlebags.

All Parrot *Bluetooth* hands-free kits use future-proof software you can update from the Internet.
